

Year R - Values Week

Curiosity Sparks Ideas

Learning Value:

Creativity

Description:

The children will be thinking creatively to notice, question and explore, using objects and the natural environment around them. They will be curious learners, working as a team, reusing materials, linking ideas and making connections to spark ideas.

Hook:

Play pass the box. What could the box become?

Quality Text:

Outcome:

Drawing Club:

Not a box! What is it going to be?

Use your imagination to change the box into something new or something to look after our world.

We will take part in:

A curiosity walk & natural habitat building experience

Creating nature picture maps as a team

Understanding the World - Exploring the natural world around them and observations of plants/animals and talking about changes.

Draw information from a simple map and notice features of their school environment.

Making Box Worlds & Role Play

Expressive Arts & Design - Develop imaginative play and creating with materials.

Communication & Language - Share ideas through small-world play and storytelling.

Personal, Social & Emotional Development -Work collaboratively; negotiate and take turns.

Thinking Skills - creating and thinking critically: testing ideas, finding new ways to solve problems.

Drawing Club: Creative writing -Draw and talk about their imaginative ideas.
